

PROJECTS PORTFOLIO

DELIVERING EXCELLENCE ACROSS IRAQ

ONGOING PROJECTS ACROSS KEY SECTORS IN IRAQ – 2026 | Total Estimated Value: ~USD 18 Million

1 Crude Oil Pipeline Network Upgrade – Nationwide

Client: Oil Pipelines Company (OPC) – Ministry of Oil

Value: USD 4.5 Million

Upgrading and expansion of crude oil pipeline systems to enhance transport capacity and reliability. Includes rehabilitation, welding, testing, and commissioning of new and existing lines.

2 Combined Cycle Power Plant Development – Central Iraq

Client: Ministry of Electricity

Value: USD 4.0 Million

Construction of high-efficiency gas-fired power plant to support national grid stability. Scope includes civil, mechanical, and electrical works with full system integration and commissioning.

3 Industrial Zone Infrastructure Development – Iraq

Client: Ministry of Industry & Minerals

Value: USD 3.5 Million

Development of utilities and infrastructure for industrial zones and economic hubs. Includes roads, utilities, warehouses, and support facilities.

4 Oilfield Logistics & Supply Base – Basra

Client: Basra Oil Company

Value: USD 3.5 Million

Development of logistics hub supporting oilfield operations and material handling. Includes storage facilities, transport yards, and operational infrastructure.

5 Maintenance & Fabrication Facilities – Industrial Sector

Client: State Company for Oil Projects (SCOP)

Value: USD 2.5 Million

Development of workshops and fabrication yards to support industrial operations. Includes steel structures, equipment installation, and utility systems.

REPRESENTATIVE PROJECTS ACROSS MULTIPLE SECTORS – 2025 | Total Estimated Value: ~USD 15.3 Million

1 Gas Growth Integrated Project (GGIP) – Basra

Client: Basra Oil Company / TotalEnergies

Value: USD 3.0 Million

Development of gas processing facilities and supporting infrastructure to capture and utilize associated gas. Installation of pipelines, compression systems, and integration with power generation networks.

2 400 kV Transmission Line Expansion – Southern Iraq

Client: Ministry of Electricity

Value: USD 2.5 Million

Development of high-voltage transmission lines connecting power generation stations to the national grid. Scope includes tower erection, cable installation, and commissioning.

3 Government Administrative Complex – Baghdad

Client: Ministry of Planning

Value: USD 3.0 Million

Construction of multi-building government complex including offices and utilities. Scope includes structural works, MEP systems, and finishing.

4 Construction of Gas Oil Storage Tank (20,000 m³ Capacity)

Client: North Refineries Company – Ministry of Oil

Value: USD 3.2 Million

EPC of a 20,000 m³ gas oil storage tank with fixed roof, including dished bottom system (discoil), transfer pump, pipe supports, and all associated mechanical accessories and appurtenances.

5 Supply and Installation of Valve Testing and Sandblasting Systems

Client: North Refineries Company – Ministry of Oil

Value: USD 1.5 Million

Supply, installation, and commissioning of valve testing equipment, PRV testing systems, and sandblasting unit with all accessories, including gable-roof shelter for sandblasting operations.

6 Rehabilitation of Industrial Water Treatment Unit – Band Elevation and Soil Replacement (Salah Al-Din Refinery / 2)

Client: North Refineries Company – Ministry of Oil

Value: USD 2.1 Million

Civil works including elevation of basins, excavation and replacement of unsuitable soil, and backfilling for the IWT Unit at Salah Al-Din Refinery / 2.

REPRESENTATIVE PROJECTS ACROSS MULTIPLE SECTORS – 2024 | Total Estimated Value: ~USD 12 Million

1 Power Transmission Network Upgrade – Central Iraq

Client: Ministry of Electricity

Value: USD 3.5 Million

Expansion and rehabilitation of transmission lines to improve grid performance. Includes substation upgrades and system commissioning.

2 Gas-Fired Power Plant Expansion – Baghdad Region

Client: Ministry of Electricity

Value: USD 3.0 Million

Expansion of power generation facilities to increase capacity. Execution of mechanical, electrical, and civil works.

3 Sewerage Network Development – Najaf City

Client: Najaf Municipality

Value: USD 2.5 Million

Development of sewerage infrastructure to improve sanitation systems. Includes pipelines, pumping stations, and treatment connections.

4 Road Rehabilitation Project – Northern Iraq

Client: Ministry of Construction & Housing

Value: USD 3.0 Million

Rehabilitation of road networks including paving and drainage systems. Execution includes earthworks and traffic safety infrastructure.

REPRESENTATIVE PROJECTS ACROSS KEY SECTORS IN IRAQ – 2023 | Total Estimated Value: ~USD 8 Million

1 Substation Rehabilitation Project – Baghdad

Client: Ministry of Electricity

Value: USD 1.5 Million

Rehabilitation of electrical substation to improve distribution reliability. Includes transformer installation and system upgrades.

2 Diesel Power Plant Installation – Western Iraq

Client: Ministry of Electricity

Value: USD 1.5 Million

Installation of diesel power units to support regional electricity demand. Includes generators, fuel systems, and grid connection.

3 Drainage and Flood Control System – Southern Iraq

Client: Ministry of Water Resources

Value: USD 1.5 Million

Development of drainage and flood control infrastructure. Includes excavation, concrete works, and hydraulic systems.

4 Road Construction Project – Diyala Governorate

Client: Diyala Governorate

Value: USD 1.5 Million

Construction of road networks connecting urban and rural areas. Includes paving, culverts, and safety systems.

5 Educational Facilities Construction – Multi-City

Client: Ministry of Education

Value: USD 2.0 Million

Construction of schools and training facilities. Includes structural works, MEP systems, and finishing.

PROJECT LOCATIONS MAP – IRAQ

LEGEND (PROJECT CATEGORIES)

- Oil & Gas
- Power & Energy
- Infrastructure & Roads
- Water & Environment
- Industrial & Facilities
- Buildings & Civic Facilities
- Logistics & Support

ONGOING PROJECTS – 2026

- Crude Oil Pipeline Network Upgrade – Nationwide
- Combined Cycle Power Plant Development – Central Iraq
- Industrial Zone Infrastructure Development – Iraq

SAFETY FIRST
We prioritize safety all our operations.

QUALITY ASSURANCE
Committed to delivering high-quality solutions.

ON-TIME DELIVERY
We complete projects on schedule.

SUSTAINABLE SOLUTIONS
Building for a better and sustainable future.

CLIENT SATISFACTION
Focused on exceeding client expectations.
